

Brian and Kathy Brookshaw have been awarded The Brecon Beacons National Park Ambassador Award 2010, which was funded by Collabor8.

Collabor8 is a transnational European project that aims to contribute to the economic prosperity, sustainability & cultural identity of North West Europe in increasingly competitive global markets. This will be done by forming & supporting new clusters in the cultural, creative, countryside, recreation, local foods & hospitality sectors using uniqueness of place as a binding force & overcoming barriers to regional and transnational collaboration.
